## Features:

- Ultra-flexible rubber top
- Steel telescoping stem, adjusts from 30" to 45"
- Durable reinforced bottom
- 3- folding leg bases
- Portable travel bag
- Retail Packed
- Black

## Instructions:

Improve your hand-eye coordination, and master your swing with Champion Sports Portable Folding Batting Tee.

1. The 88PRO comes with one rubber top to be used for baseball and softball. Using a mixture of hand soap and water, lightly lubricate the small end of the tube and inside of the rubber top you are going to install. Slide the rubber top into the tube until the start of the taper of the rubber top is even with the top of the tube. Figure 1
2. Once the top is in the correct position, dry thoroughly. Using the provided tape, secure the top to the tube with several wraps of tape. Figure 2
3. The 88PRO has an all-metal, foldable three-legged base. Figure 3
4. To set up your 88PRO, turn it upside down and compress the spring with the leg. Lift the leg in place and allow the spring to lock the leg in position. Repeat for all three legs and make sure they are secure. Your 88PRO-T is now set up. Figure 4
5. Taking down your 88PRO-T is just as easy. Simply compress the spring with the leg and fold leg towards the top of the 88PRO. Figure 5
