## PICKLEBALL NET

### Features:

- Regulation size 22'W
- Steel frame for superior durability
- Adjustment straps maximizes tension
- Center support keeps the net taught at 34"H
- Heavy-duty carry bag

### Instructions:

The Champion Sports pickleball net is the perfect net for a game of pickleball.

1. Assemble the horizontal poles first. Use the full net image for reference as you proceed.
2. Place 2 end bases approximately 22 feet apart. **①**
3. Snap the 2-part center support together and place midway between both end bases. **⑥⑦**
4. Insert each bent pole and then connect 3 poles on each side to center base. **③④⑤**
5. Slide net sleeves over each vertical net post then attach the vertical poles with end caps to each end base.  
The frame is now completely assembled. **②**
6. Insert the center pipe through opening in center support base. Attach a Velcro® strap around the small round vertical pole to secure. Attach a Velcro® strap to each side pole.
7. Use adjustable net straps to create straight net appearance. Loop the black adjustment straps around pole to secure with Velcro® at desired tension. The side Velcro® straps need to be very tight.
8. Your center strap height should now be at regulation 34 inches off the ground. At one foot inwards from the end of the net on each side, the net height should be a regulation 36 inches. To adjust this height, simply slide the net sleeve up or down as needed.
9. **Storage Tip:** Fold the net to include the side and center poles for ease of future assembly.
