JUMBO TIMER INSTRUCTIONS

You have just purchased the ULTIMATE countdown timer! Your timer includes a START button to start the countdown, a STOP button to stop it, and an Alarm Mode to alert you when the countdown is over. Here are the instructions on how to use it:

COUNT-DOWN TIMER
1. Press [START] button (A) until you see "CD" above the display. "CD" will flash on and off until the countdown reaches 00000. (This is a feature to prevent the timer from resetting itself.)
2. Press [STOP] button (B) to stop the countdown.
3. Press [RESET] button (C) to reset the countdown to 00000.

COUNT-UP TIMER
1. Press [MODE] button (D) until "COUNT-UP" appears on the display. "COUNT-UP" will flash on and off until the count reaches 00000.
2. Press [START] button (A) to start the count-up.
3. Press [STOP] button (B) to stop the count-up.
4. Press [RESET] button (C) to reset the count-up to 00000.

STOPWATCH MODE
From NORMAL TIME, press [MODE] button (D) until you see "SW" above the display. "SW" will flash on and off until the stopwatch is reset to 00000.
1. Press [SELECT] button (E) to select the time you want to time.
2. Press [START] button (A) to start the stopwatch.
3. Press [STOP] button (B) to stop the stopwatch.
4. Press [RESET] button (C) to reset the stopwatch to 00000.

ALARM MODE
1. Press [MODE] button (D) until you see "ALARM" above the display.
2. Press [START] button (A) to start the alarm.
3. Press [STOP] button (B) to stop the alarm.
4. Press [RESET] button (C) to reset the alarm to 00000.

Set Time Mode
1. Press [MODE] button (D) until you see "SET" above the display.
2. Press [START] button (A) to set the time.
3. Press [STOP] button (B) to stop the timer.
4. Press [RESET] button (C) to reset the time to 00000.

Battery
For best results use a silver oxide or alkaline battery.

CAUTION
You must align the front of the timer with the time and set the hour, minute, and second digits. Once set, the timer will continue to run and beep until the time is up. If you want to stop the timer, press the [STOP] button (B). If you need to reset the timer, press the [RESET] button (C).
