Assembly of the ball rack is straightforward and easy. It is suggested the unit assembly top down to aid in stabilizing it. Then turned upright.

**Step 1**
Insert 4 legs into the openings in Top. Push down hard.

**Step 2**
Put the center on top of the 4 legs. Push down. Insert remaining 4 Legs into the center.

**Step 3**
Put Bottom section (with casters) onto these legs. Pull down very hard. Turn upright and put it to work.

This rack intended for the storage of fitness ball. Manufacture assumes no responsibility for misuse.
